

Solution is everything

Employment Law and
HR Support Services

Protect your business

With an increasing amount of unregulated employment law advice currently marketed to small and medium sized businesses, it is easy to sign up to a package that will not offer the support required by a modern employer.

As all of our advice is provided by qualified lawyers, you can be sure that your business is covered, every step of the way.

Milners aim to protect you against the rising costs of managing difficult employee relations and an increased risk of having to defend against an employment tribunal claim.

We will review all of your existing employment contracts or create entirely new bespoke employment contracts to suit the needs of the business and to ensure the business is protected from the outset of your employment relationships.

When it comes to defending you, in the event that a claim is submitted to the Employment Tribunal, insurance will ensure that our fees are covered, in addition to any awards for damages, while our specialist employment lawyers will deliver up-to-date and first class advice.
